## Project Summary

### 1. VegSpoons

**Duration:** May 2025 – Present | **Role:** Full Stack Laravel Developer

**Tech Stack:** Laravel, MySQL, JavaScript, HTML/CSS, AWS

**Overview:** A business listing platform focused on food and lifestyle services with subscription-based listing features.

**Key Contributions:**

- Built complete listing workflow with draft, pending, and paid states.
- Integrated Stripe payments with subscription and auto-renewal.
- Developed API layer for mobile app consumption.
- Implemented user account system supporting multiple profiles.

### 2. Downtown TX

**Duration:** Dec 2023 – June 2024 | **Role:** Laravel Developer | **Team Size:** 2

**Tech Stack:** Laravel, PostgreSQL, JavaScript, HTML, Bootstrap

**Overview:** Property listing web app with admin-controlled community management and property mapping.

**Key Contributions:**

- Developed features like community creation, property listings, and map-based boundaries.
- Implemented role-based access and user authentication.
- Coordinated project timelines and client feedback.

### 3. ParkingNest

**Role:** Backend Laravel Developer | **Team Size:** 2

**Tech Stack:** Laravel (Backend), Flutter (Frontend)

**Overview:** A mobile app for parking space booking and listing, integrated with payment gateway.

**Key Contributions:**

- Built backend features to manage parking listings and slots.
- Integrated Razorpay for secure and smooth transactions.
